Experience

Multimedia Designer Institute Polytechnic of Santarém 2022 - 2022	Created manuals, infographics, logos, and presentations for national and international projects. Translated documents and video content to English. Managed and updated academic content on Moodle. Participated in the DID.Value international training course in Turkey, focused on employability and digital skills.
UX/UI Designer Independent Contractor 2020 - 2021	Worked together with an independent designer on several client projects. Created and maintained design systems in Figma, ensuring visual consistency and scalability. Developed responsive websites in Webflow, with a strong focus on usability and user experience.
Graphic Designer and Communication Benavente City Hall 2019 - 2019	Designed and produced posters and visual assets for local events. Developed visual solutions and collaborated in the creation of communication content to convey information across different audiences, including public and cultural initiatives.
